Program Overview

The Master of Arts in Ministry Technology and Digital Media prepares leaders to set technology and AI strategy, lead digital content, and build online learning and community platforms with integrity.

How EACU Is Different

Technology, including artificial intelligence, is examined from every side: its possibilities, its limits, and its ethical risks. Students learn to use AI and digital media with discernment, truthfulness, and integrity, and to make technology serve the mission rather than replace it.

At the graduate level, students weigh the biblical text, ancient witnesses, research, and later interpretation side by side, then build and defend their own position with scholarly rigor while remaining grounded in the foundation of truth.

> **Required in every EACU degree:** Biblical Interpretation (Rightly Dividing the Word), Biblical Finance and Stewardship, and Biblical Mindset and Mental Health. Every course is built with visual, auditory, reading and writing, and hands-on learning.

Program Outcomes

1. Articulate a theology of technology and media.
2. Lead AI strategy for organizations.
3. Direct digital content strategy.
4. Build online learning and community platforms.
5. Complete and defend graduate-level research or an applied project.

Where This Degree Can Lead

- Chief technology or digital officer for a ministry
- AI and digital strategy consultant
- Online learning director
- Author and speaker on faith and technology

Admission

A completed bachelor's degree. See Admissions for full requirements.

M.A. in Ministry Technology and Digital Media
